M. Stojanowski 2017-01-05 The lives of kings, poets, authors, criminals and celebrities are a perpetual fascination in the media and popular culture, and for decades anthropologists and other scientists have participated in 'post-mortem dissections' of the lives of historical figures. In this field of biohistory, researchers have identified and analyzed these figures' bodies using technologies such as DNA fingerprinting, biochemical assays, and skeletal biology. This book brings together biohistorical case studies for the first time, and considers the role of the anthropologist in the writing of historical narratives surrounding the deceased. Contributors theorize biohistory with respect to the sociology of the body, examining the ethical implications of biohistorical work and the diversity of social theoretical perspectives that researchers' work may relate to. The volume defines scales of biohistorical

engagement, providing readers with a critical sense of scale and the different paths to 'historical notoriety' that can emerge with respect to human remains.

The Musician as Entrepreneur, 1700-1914 William E. Weber 2004-11-09 To be successful, a musician often has to be an entrepreneur: someone who starts a performing venue, develops patrons, and promotes the project aggressively. Accomplishing this requires musicians to acquire social and business skills and to be highly opportunistic in what they do. In *The Musician as Entrepreneur, 1700-1914*, international scholars investigate cases of musical entrepreneurship between around 1700 and 1914 in Britain, France, Germany, and the United States. By uncovering the ways in which musicians such as Telemann, Beethoven, Paganini, and Liszt conducted their daily business, the authors reveal how musicians reshaped the frameworks of

musical culture and, in the process, the nature of the music itself.

A Marriage of Philosophy and Music Erich Welling 2014-04 How to use philosophy and music to open your horizons and enjoy being yourself, put theory to work, and help you experience personal growth is discussed in A Marriage of Philosophy and Music. It is all about "after." After having a liberal education, you are comfortable in modern culture, and after further education and becoming a specialist in some field, you enjoy using your skills. We learn the ideas and methods of many social cultures and our own chosen specialty, but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality. This book offers a path toward the education of privacy, with the key words being selection, design, and beauty. The book relates five areas of general human interest: spirituality, philosophy,

science, art, and body awareness. The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music. Because of the plurality of subject matters and methods used in philosophy and music, their patterns of discipline are comparable to self-discipline. A Marriage of Philosophy and Music attempts to create a path in this direction, because besides the enjoyment of social culture and personal skills, there is enjoyment in being yourself, which is a neglected liberal art.

Beethoven and the Grosse Fuge Robert S. Kahn 2010-06-01 This book looks closely at both Beethoven and the Grosse Fuge, placing both in their historical and social contexts. It considers interesting questions

about whether absolute music—music without words—can have meaning and speculates that some works of Western music can evoke synesthesia in listeners—a sense of motion through three-dimensional volumes of space. The author also speculates that Beethoven's long creative dry spell in his late 40s was caused by an extended bout with clinical depression. Symbolic Landscapes Gary Backhaus 2008-11-09 Symbolic Landscapes presents a definitive collection of landscape/place studies that explores symbolic, cultural levels of geographical meanings. Essays written by philosophers, geographers, architects, social scientists, art historians, and literati, bring specific modes of expertise and perspectives to this transdisciplinary and interdisciplinary study of the symbolic level human existential spatiality. Placing emphasis on the pre-cognitive genesis of symbolic meaning, as

well as embodied, experiential (lived) geography, the volume offers a fresh, quasi-phenomenological approach. The editors articulate the epistemological doctrine that perception and imagination form a continuum in which both are always implicated as complements. This approach makes a case for the interrelation of the geography of perception and the geography of imagination, which means that human/cultural geography offers only an abstraction if indeed an aesthetic geography is constituted merely as a sub-field. Human/cultural geography can only approach spatial reality through recognizing the intimate interrelative dialectic between the imaginative and perceptual meanings of our landscapes/place-worlds. This volume reinvigorates the importance of the topic of symbolism in human/cultural geography, landscape studies, philosophy of place,

architecture and planning, and will stand among the classics in the field.

Transition 112 IU Press Journals
2015-02-20 Published three times per year by Indiana University Press for the Hutchins Center at Harvard University, Transition is a unique forum for the freshest, most compelling ideas from and about the black world. Since its founding in Uganda in 1961, the magazine has kept pace of the rapid transformation of the African Diaspora and has remained a leading forum of intellectual debate. In issue 112, the editors of Transition look at violence, particularly as it relates to the history of slavery, which raises the question of representation. Textbooks and television both grapple with the same fundamental questions: to whom do the stories of slaves belong? How should these stories be told?

In this issue, Daniel Itzkovitz talks with Tony Kushner about the controversy that surrounded the making of *Lincoln*, a serious and sober film about the passage of the 13th Amendment. *Django Unchained* covers the same time period but uses a wildly different lens. The film is terrifying and topsy-turvy, and has ignited controversy that became a white-hot conflagration. Henry Louis Gates, Jr. speaks with Quentin Tarantino about the making of his film, and a host of scholars and critics, including Walter Johnson, Glenda Carpio, and Terri Francis, set the issue ablaze with provocative and searing commentary that speaks to the controversial film and its potent afterlife.

Beethoven y Paganini Adolfo Martínez Palomo 2020-10-27 Ludwig van Beethoven y Niccolò Paganini vivieron en la misma

época, pero no tuvieron contacto alguno, ni en persona ni por escrito. Si bien Paganini consideró los cuartetos de cuerdas de Beethoven como “extravagantes”, la música del compositor alemán seguramente influyó en las composiciones del violinista “diabólico”, doce años más joven, quien viajó a Viena para ofrecer recitales, cuando Beethoven ya había muerto. Sin conocerse, estos dos genios compartieron el padecer una salud deplorable; ambos en manos de médicos tan famosos como incapaces de aliviar sus tormentos.

It Runs in the Family Ruth A Symes

2013-12-02 Why didn't my ancestors smile for the camera? Why did great-grandfather wear a beard whilst his sons were clean-shaven? Should great-grandma really have married her cousin? Was great-aunt unusual to have several children in her 40s? Drawing on evidence from social history, women's history, and the histories of

photography and fashion, to name but a few, this book looks at a number of issues that have long perplexed and amused family historians. Richly illustrated with photographs and drawings from the 19th and early 20th centuries, and using examples from the famous as well the lowly, the book investigates the whys and wherefores of several aspects of personal appearance and dress, and the ins and outs of a whole series of family relationships. It culminates by providing an innovative new methodology for getting more out of the standard documents of family history research - birth, marriage and death certificates.

Beethoven's Hair Russell Martin

2002-01-08 The basis for the movie of the same name, an astonishing tale of one lock of hair and its amazing travels--from nineteenth-century Vienna to twenty-first-century America. When Ludwig van

Beethoven lay dying in 1827, a young musician named Ferdinand Hiller came to pay his respects to the great composer, snipping a lock of Beethoven's hair as a keepsake--as was custom at the time--in the process. For a century, the lock of hair was a treasured Hiller family relic, until it somehow found its way to the town of Gilleleje, in Nazi-occupied Denmark. There, it was given to a local doctor, Kay Fremming, who was deeply involved in the effort to help save hundreds of hunted and frightened Jews. After Fremming's death, his daughter assumed ownership of the lock, and eventually consigned it for sale at Sotheby's, where two American Beethoven enthusiasts, Ira Brilliant and Che Guevara, purchased it in 1994. Subsequently, they and others instituted a series of complex forensic tests in the hope of finding the probable causes of the composer's chronically bad health, his deafness, and

the final demise that Ferdinand Hiller had witnessed all those years ago. The results, revealed for the first time here, are the most compelling explanation yet offered for why one of the foremost musicians the world has ever known was forced to spend much of his life in silence. In *Beethoven's Hair*, Russell Martin has created a rich historical treasure hunt, a tale of false leads, amazing breakthroughs, and incredible revelations. This unique and fascinating book is a moving testament to the power of music, the lure of relics, the heroism of the Resistance movement, and the brilliance of molecular science. *Planet Beethoven* Mina Yang 2014-11-04 In *Planet Beethoven*, Mina Yang makes the compelling case that classical music in the twenty-first century is just as vibrant and relevant as ever—but with significant changes that give us insight into the major cultural shifts of our day. Perusing events,

projects, programs, writings, musicians, and compositions, Yang shines a spotlight on the Western art music tradition. The book covers an array of topics, from the use of Beethoven's "Für Elise" in YouTube clips and hip-hop, to the marketing claims of Baby Einstein products, and the new forms of music education introduced by Gustavo Dudamel, conductor of the Los Angeles Philharmonic. While the book is global in its outlook, each chapter investigates the unique attributes of a specific performer, performance, or event. One chapter reflects on Chinese pianist Yuja Wang's controversial performance at the Hollywood Bowl, another explores the highly symbolic Passion 2000 Project in Stuttgart, Germany. Sure to be of interest to students, professionals, and aficionados, Planet Beethoven traces the tensions that arise from the "classical" nature of this tradition and our rapidly changing world. The Rest is Noise Alex Ross 2017-04-03

Eine glänzende Erzählung lässt uns die Geschichte des 20. Jahrhunderts über seine Musik neu erleben. Alex Ross, Kritiker des »New Yorker«, bringt uns aus dem Wien und Graz am Vorabend des Ersten Weltkriegs ins Paris und Berlin der Goldenen Zwanzigerjahre, aus Hitler-Deutschland über Russland ins Amerika der Sechziger- und Siebzigerjahre. Er führt uns durch ein labyrinthisches Reich, von Jean Sibelius bis Lou Reed, von Gustav Mahler bis Björk. Und wir folgen dem Aufstieg der Massenkultur wie der Politik der Massen, den dramatischen Veränderungen durch neue Techniken genauso wie den Kriegen,

Critical Musicological Reflections Stan

Hawkins 2016-04-22 This collection of original essays is in tribute to the work of Derek Scott on the occasion of his sixtieth birthday. As one of the leading lights in Critical Musicology, Scott has helped shape the epistemological direction for music research since the late 1980s. There is no doubt that the path taken by the critical musicologist has been a tricky one, leading to new conceptions, interactions, and heated debates during the past two decades. Changes in musicology during the closing decades of the twentieth century prompted the establishment of new sets of theoretical methods that probed at the

social and cultural relevance of music, as much as its self-referentiality. All the scholars contributing to this book have played a role in the general paradigmatic shift that ensued in the wake of Kerman's call for change in the 1980s. Setting out to address a range of approaches to theorizing music and promulgating modes of analysis across a wide range of repertoires, the essays in this collection can be read as a coming of age of critical musicology through its active dialogue with other disciplines such as sociology, feminism, ethnomusicology, history, anthropology, philosophy, cultural studies, aesthetics, media studies, film music studies, and gender studies. The volume provides music researchers and graduate students with an up-to-date authoritative reference to all matters dealing with the state of critical musicology today.

Beethoven's 32 Piano Sonatas Stewart Gordon 2016-12-13 The thirty-two Piano Sonatas of Ludwig van Beethoven form one of the most important segments of piano literature. In this accessible, compact, and comprehensive guidebook, renowned performer and pedagogue Stewart Gordon presents the pianist with historical insights and practical instructional tools for interpreting the pieces. In the opening chapters of Beethoven's 32 Piano Sonatas, Gordon illuminates the essential historical context behind common performance problems, discussing Beethoven's own pianos and how they relate to compositional style and demands in the pieces, and addressing textual issues, performance practices, and nuances of the composer's manuscript inscriptions. In outlining patterns of structure, sonority, keyboard

technique, and emotional meaning evident across Beethoven's compositional development, Gordon provides important background and technical information key to understanding his works in context. Part II of the book presents each sonata in an outline-chart format, giving the student and teacher ready access to essential information, interpretive choices, and technical challenges in the individual works, measure by measure, all in one handy reference source. In consideration of the broad diversity of today's Beethoven interpreters, Gordon avoids one-size-fits-all solutions or giving undue weight to his own tastes and preferences. Instead, he puts the choices in the hands of the performers, enabling them to create their own personal relationship with the music and a more powerful performance.

A Cultural History of Hair in the Age of

Empire Sarah Heaton 2020-12-10 Hair, or lack of it, is one the most significant identifiers of individuals in any society. In Antiquity, the power of hair to send a series of social messages was no different. This volume covers nearly a thousand years of history, from Archaic Greece to the end of the Roman Empire, concentrating on what is now Europe, North Africa, and the Near East. Among the key issues identified by its authors is the recognition that in any given society male and female hair tend to be opposites (when male hair is generally short, women's is long); that hair is a marker of age and stage of life (children and young people have longer, less confined hairstyles; adult hair is far more controlled); hair can be used to identify the 'other' in terms of race and ethnicity but also those who stand outside social norms such as witches and mad women. The chapters in *A Cultural History of Hair in*

Antiquity cover the following topics: religion and ritualized belief, self and society, fashion and adornment, production and practice, health and hygiene, gender and sexuality, race and ethnicity, class and social status, and cultural representations.
